

MDX

PRODUCT SPECIFICATION

Mecalac

THE MDX: COMBINING SAFETY AND DESIGN BY PUTTING THE DRIVER FIRST

- Unparalleled integration of the cab in the design
- Best accessibility of any machine on the market thanks to a ladder which makes climbs and descents safe and limits driver fatigue
- "Butterfly" side doors creating a wide access space
- Excellent direct field of vision complemented by a forward facing camera and optional hazard detection
- The addition of a cast iron rear shield for optimum protection
- Excellent ground clearance for optimum access on all terrain
- An isolated cab to limit noise and vibrations
- Fuel tank and a service hatch in lower section of the machine for easier access
- An advanced dashboard integrating "as standard" the camera screen
- Air conditioning available as an option

6MDX FACTS AND FIGURES

Operating weight (kg)	4950	Capacity (kg)	6000
Power rating (kW/hp)	55 / 74	Total height (mm)	2930
Speed (km/h)	28	Engine	Perkins stage IIIB, 55 kW
Width (mm)	2190	Frontal or 180° rotation skip	
Total length (mm)	4445		

9MDX FACTS AND FIGURES

Operating weight (kg)	5860	Capacity (kg)	9000
Power rating (kW/hp)	55 / 74	Total height (mm)	3430
Speed (km/h)	24	Engine	Perkins stage IIIB, 55 kW
Width (mm)	2380	Frontal or 180° rotation skip	
Total length (mm)	4605
